

Read Me First!!
Ver. 1.1

Before delving into the rules, or printing out counters etc there is a couple of areas I would like to draw attention to:

Rules - the rules PDF is split down into the 2-player and Solitaire rules. Both these two rule sets share a lot of the same game play mechanics and both fully detailed, which means there is some duplication. If you want to only play the game two player you don't need to read the Solitaire rules and vice versa.

Counter JPGs - We have included more of the gameplay token's than you probably need. By all means print them out, mount them and cut them out. Never hurts to have some spares!!

Bravery Point Counters - These are only used in the Two Player game.

Map -There are two ways to print out the map, due to its size. Firstly I have included a JPG of the whole map and if you have access or want to print your map at a printers you can use that. Secondly for folk printing the game at home I have split the map over 3 PDFs so print them out and stick the 3 pieces together - there is quite a bit of overlap to help.

In addition if you would prefer to print the map bigger to have larger hex space, then feel free - as a rough recommendation I would say print at 150% size to have larger hexes. The resolution and art will certainly stand up to enlargements.

As this is a print and play game feel free to print at home or use a professional printers.

Finally I would like to take this opportunity to thank all the Kickstarter backers, gaming community, followers, friends and family for their ongoing support and feedback.

Many Thanks!

Matt
