Notes:

- Distance is C for Close Range along Ridgeline, P for Point Blank, P/C is 50/50 either way
- Direction is always straight ahead
- No enemy is removed if LOS is lost, AND another contact is made if card is re-entered after being abandoned
- Enemy experience is Line in missions 1-6, Green in 7-8
- Enemy will open fire and fire overhead on cards occupied by their own troops
- Enemy Machineguns have 6 ammo in missions 1-6, 4 ammo in missions 7-8
- If both sides occupy a card, any enemy good order, assault team or fire teams will automatically attempt a grenade attack as their activity check

CAMPAIGN SPECIAL RULES

Steep Ridge Issues

CSR 1 No Diagonal Movement.

CSR 2 Grenade Attacks may be attempted at Close Range Downhill.

CSR 3 Razorback—an especially sharp, narrow crest runs the seam between Column 1 and 2. LOS can only be traced across the crest to the side, not diagonally. Fire across the crest receives an additional +1 cover and concealment modifier.

Special Tactics

CSR 4 NKPA Grenade Preference

- NKPA used grenades as weapon of choice. Using the –3 Grenade modifier.
- If both sides occupy a card, any enemy unpinned squad, leader, assault team or fire teams will automatically attempt a grenade attack as their activity check.
- If a downhill Grenade Attack (CSR 2) is possible (a PDF exists) any concentrate fire attempt activity check result is a grenade attack instead.
- Machine Gun teams do not attempt grenade attacks unless sthey are out of ammunition.

CSR 5 Tank Support

- In missions 4 and 7, US Tanks could fire in support of troops from the valley below and left of the map.
- Setup staging area cards parallel to the map, this represents the parallel valley floor at Very Long range.
- The Tanks must be activated for movement or fire in Vehicle phase to fire in support.
- The Tanks fire in response to smoke signals, the player designates which are for fire in the same card, which are for adjacent cards.
- Targets must be spotted. Tanks cannot be used for spotting.
- The NKPA have no effective anti-tank capability, only command limitations, spotting and Higher HQ Events can limit the ability of the tanks to support.
- Tanks cannot support in Rain/Fog visibility conditions.

MAP CONSTRUCTION NOTES

- 1 The relative elevation of each card on each map is pre-determined. Unused cards can be used to build a stack of facedown cards to indicate relative elevation.
- 2 The ridges represented are very steep and combat was along the crest lines and the immediate area on either side. Movement up the sides would be virtually impossible.
- 3 Hill cards double as Open cards and have a Cover Potential of 1 with base 2 draws to find cover.
- 4 Column 2 (the center column) is the ridge line, columns 1 and 3 and the downhill sides (except mission 5).
- 5 Along the ridge line only terrain possible is Open, Rocky or Brush.
- 6 On the slopes, the only terrain possible is Open, Rocky, Brush or Gully/Draw.

Map Building Instructions for Missions 1-4, 6-7

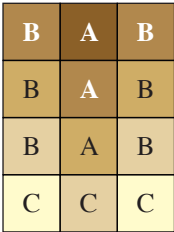

- Step 1: Remove All Village, Cemetery, Embankment and Rice Paddy cards from the deck (20 cards).
- Step 2: Set aside the Gully/Draw cards (6 cards).
- Step 3: Shuffle the Open, Rocky, Brush and Hill cards and build Ridge top—Column 2. Hill cards are treated as Open.
- Step 4: Add in Gully/Draws and reshuffle to build columns 1 and 3.

Map Building Instructions for Missions 5 Razorback

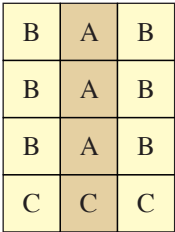

- Step 1: Remove All Village, Cemetery, Embankment and Rice Raddy cards from the deck (20 cards).
- Step 2: Shuffle and build the map with Hills treated as Open.
